

NEXT STEPS

Using public feedback from this outreach effort, the planning team will **refine the preliminary recommendations and visionary networks** as appropriate. All previously completed work, as well as a discussion on funding sources and implementation, will then be compiled into the overarching Greater Triangle Area Transportation Plan. The draft plan is expected to be available in **late March 2022** and will be made available for a **formal public review period**. All public comments will be considered by the planning team and incorporated into the final plan as appropriate. The **final GTATP, expected at the end of April 2022**, will be presented to the **Gallatin County Commission for adoption**.
